ABN 16 744 377 876

PART A

PERSON RESPONSIBLE

The person responsible for a UPSS is the person who has management and control of the system. The person responsible must have procedures and systems in place to detect and fix any fuel leaks as early as possible, and document these in a Fuel System Operation plan.

Name

No. of tanks		Construction material(s)	
Ground water wells or alternate leak detection system installed	☐	Fuel Service Operation Plan (FSOP) accessible	☐

The [Guidelines for Implementing the Protection of the Environment Operations \(Underground Petroleum Storage Systems\) Regulation 2019](#) explain how owners can meet the requirements to monitor for, detect and fix leaks promptly to protect the environment and save costly clean-ups. They also set out the performance requirements for maintenance, procedures for fuel storage and delivery, record-keeping, reporting leaks and decommissioning unused systems. For further information, please visit www.epa.nsw.gov.au.

PART C

DECLARATION AND SIGNATURE OF PERSON RESPONSIBLE

I confirm that the above particulars are true and correct. I understand that the UPSS may be subject to inspection in line with requirements of the Protection of the Environment Operations (Underground Petroleum Storage Systems) Regulation 2019.
